

ORR rail statistics

Newsletter

23 June 2023

Apologies it's been a while since our last newsletter. This one is just a short one to let you all know about a [Transport Statistics Users Group](#) (TSUG) seminar coming up on **12 July** where we are presenting about rail statistics.

Attached is the [seminar flyer](#) and information on how to book to attend online.

The seminar will cover:

- An overview of rail statistics published by ORR.
- ORR's data portal and recent improvements.
- An overview of the latest trends in both passenger usage and freight usage of statistics to end March 2023 which were published in early June.
- Future developments in rail statistics, including new environmental data.

This will be followed by a question and answer session.

Please email us at: rail.stats@orr.gov.uk. If you would **not** like to receive this newsletter in future please email us using this [unsubscribe](#) link.
