TransPennine Express managed 19 stations as of 31 March 2023.

Route kilometres operated includes the total extent of route available to operate on as of 31 March. It does not take into account multiple track routes (i.e. double tracks are only counted as one route kilometre but would be two track kilometres).

Route kilometres operated, TransPennine Express, as of 31 March, 2019 to 2023

TransPennine Express operated on 1,312 kilometres of route as of 31 March 2023.

Passenger rail usage

Passenger journeys are estimated based on travel from an origin station to a destination station. Where travel includes one or more changes of train, each train used is counted as one journey.

Passenger journeys (millions), TransPennine Express, annual data, April 2018 to March 2023

Between April 2022 and March 2023, there were 19.2 million passenger journeys.

Passenger kilometres are calculated by multiplying the number of passenger journeys on a particular flow by the number of corresponding track kilometres between stations.

Passenger kilometres (millions), TransPennine Express, annual data, April 2018 to March 2023

Between April 2022 and March 2023, there were 1,402 million passenger kilometres travelled.

Passenger train kilometres refers to the number of train kilometres travelled by revenue earning passenger trains.

Passenger train kilometres (millions), TransPennine Express, annual data, April 2018 to March 2023

Between April 2022 and March 2023, there were 12.0 million passenger train kilometres.

More information on passenger journeys, kilometres and revenue as well as passenger train and vehicle kilometres can be found on the [Passenger rail usage](#) page on the data portal.

There were 79,143 trains planned between April 2022 and March 2023.

Delay minutes are defined as the time lost between consecutive timing points on the rail network. Delay incidents producing three or more minutes of delay on Britain’s railways are attributed to either Network Rail or a train operator.

There are three types of responsibility category:

NR-on-TOC are delays attributed to Network Rail affecting train operating companies (e.g. Track, Network management, etc.).

TOC-on-Self are delays attributed to train operating companies affecting their own train operating company (e.g. their own fleet, train crew, etc.).

TOC-on-TOC are delays attributed to train operating companies affecting other train operating companies (e.g. another operator’s fleet, train crew, etc.).
